SYSTEM**

THIS MEMORANDUM OF UNDERSTANDING ("MOU") is made and entered into this ___ day of _____, 2006, by and between the City of Sacramento ("City"), acting by and through its Police Department ("SPD"), and the City of Elk Grove ("COEG"), acting by and through its Police Department ("EGPD") The SPD and the EGPD may be referred to collectively as "Parties" or in the singular as "Party", as the context requires.

RECITALS

The SPD and the EGPD have entered into this MOU with reference to the following facts and circumstances:

WHEREAS, the Sacramento Police Department, Office of Homeland Security purchased the Reverse 911 Emergency Telephone Notification System ("Reverse 911") through state and federal homeland security grant funding. The Reverse 911 system is offered to the listed participating agencies at no cost and includes three years of support and mass calling capabilities. Reverse 911 is an information delivery system intended to provide sufficient early warning in the event of an emergency and for the delivery of actionable information intended to enhance public safety. Reverse 911 is intended to augment existing notification systems; and

WHEREAS, the system operates on a 48-port, dual server. Redundant servers will be housed at the Sacramento City Police 911 Center and the Sacramento County Sheriff's Department 911 Center. The required T-1 lines and monthly costs will be paid for from the grant. Additionally, the purchase of the 911 database and associated monthly fees will also be paid for from the grant. System users may access the network by means of a VPN (Virtual Private Network); and

WHEREAS, system capabilities depend upon the length of a call. A 20 second message utilizing 48 lines allows 5000 calls to be made in fifty-six minutes. Should greater calling capacity be required in the event of a major disaster involving mass notification, the mass call feature may be utilized. Mass call based upon a 13 second message can make approximately 4800 calls per minute or 288,000 calls per hour; and

WHEREAS, it is intended that the Reverse 911 system be shared regionally by the City of Sacramento, Sacramento Regional Fire District, County of Sacramento, City of Roseville, City of Rocklin, City of West Sacramento, City of Folsom, City of Galt, City of Elk Grove, City of Elk Grove Fire District, City of Citrus Heights, City of Rancho Cordova, and California Highway Patrol.
