# **City of Elk Grove Investment Pool**

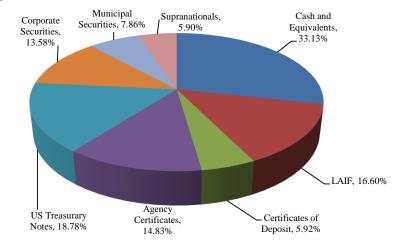

## Monthly Review - MARCH 2021

## INVESTMENT POLICY SUMMARY

The funds are invested pursuant to the objectives and requirements set forth in the City's investment policy. The City of Elk Grove's investment policy has three objectives: (1) safety of principal is the foremost objective of the investment program. Investments of the City shall be undertaken in a manner which seeks to ensure the preservation of principal in the overall portfolio (2) the City's investment portfolio shall remain sufficiently liquid to enable the City to meet all operating requirements which might be reasonably anticipated. This goal shall be achieved by maintaining a prudent portion of the City's portfolio in liquid, short-term instruments which can readily be converted to cash if necessary, and (3) the City's investment portfolio shall be designed with the objective of attaining a sound rate of return throughout budgetary and economic cycles, commensurate with the City's investment risk constraints and the cash flow characteristics of the portfolio. In accordance with California Government Code Section 53607, the Elk Grove City Council has authorized the City Treasurer to invest on behalf of the City, to manage the City's investment program consistent with this investment policy, and to maintain a system of internal controls to regulate the activities of subordinate officials. It is the City's full intent, at the time of purchase, to hold all investments until maturity to ensure the return of all invested principal dollars. However, it is realized that market prices of securities will vary depending on economic and interest rate conditions at any point in time. It is further recognized, that in a well diversified investment portfolio, occasional measured losses are inevitable due to economic, bond market or individual security credit analysis. These occasional losses must be considered within the context of the overall investment program objectives and the resultant long term rate-of-return.

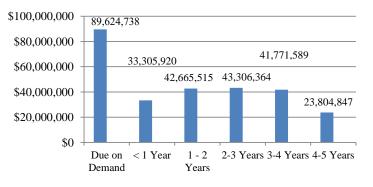

Investment Description	Portfolio at Cost	Effective Monthly Yield

The City of Elk Grove's Investment Policy reads in part:

The City of Elk Grove's investment policy has three objectives (1) protect principal, (2) provide for liquidity needs, and (3) obtain the most reasonable rate of return possible within the first two objectives.

It is the City's full intent, at the time of purchase, to hold all investments until maturity to ensure the return of all invested principal dollars. However, it is realized that market prices of securities will vary depending on economic and interest rate conditions at any point in time. It is further recognized, that in a well diversified investment portfolio, occasional measured losses are inevitable due to economic, bond market or individual security credit analysis. These occasional losses must be considered within the context of the overall investment program objectives and the resultant long term rate-of-return.
